Brand New Book ***** Print on Demand *****.I have been asked to write a brief introduction to the pamphlet which my old friend and comrade H.W. Lee has written on the undercurrent of Bolshevist propaganda going on in this country, of which the recent unauthorised strike outbreaks are outward and visible signs. I do this gladly. Our comrade Lee, through being long associated with the Social-Democratic Federation as its Secretary, and his editorship of Justice during the last five years, has gained a knowledge of International Socialist movements in their many phases which renders his pamphlet both authoritative and reliable. I hope the pamphlet will have a wide circulation in all the large industrial centres, because I feel convinced that the majority of the rank and file of the wage-earners do not and cannot know what it is that our Bolshevists are striving for. They have not the faintest idea in what direction some of them are being led. The Bolshevists in certain industrial centres want to impose their own authority on the rank and file of the workers, using catch-words for that purpose. If they succeed in this direction they will set to work to undermine the trade union movement of this country, and upset, instead of making use of, the means we at present possess for improving our economic conditions.
