Not illustrated. 1856 Excerpt: . . . INTRODUCTION. Let me premise, by way of introduction, that the ensuing pages lay no claim to the character of a scientific treatise on the subject of Marine Zoology, nor are they a monograph on the genus indicated by the title-page. They are not, therefore, addressed to professed naturalists, but to that section of amateur rambles about our English coasts who take a pleasure in noticing every form of beauty which they may encounter in their wanderings. And I am desirous of saying a few plain words about seaanemones to such an audience for the following reasons: --In the first place, the sea-anemones are objects of exceeding beauty, both of form and colour; they have always been compared (and do not suffer by the comparison) with the most gorgeous and delicate flowers of our woods and gardens--with the frail wind-crumpled anemone--the stately dahlia--and the many-tinted chrysanthemum. Poets have sung their praises, and strong-minded naturalists in speaking of them have for the nonce risen above B the shackled routine of their ordinary scientific descriptions. Next, they may be obtained by a very small amount of labour and research: there are few rocktracks between the tide-levels which will not afford a harvest to an explorer of ordinary observation. Further, they may be kept in the drawing-room or the study without trouble or annoyance, and may be carried away to our country-houses as a permanent memorial of our visit to the sea-side. So, too, they form an excellent...
