Of all of his works, Intuitive Thinking as a Spiritual Path is the one that Steiner himself believed would have the longest life and the greatest spiritual and cultural consequences. It was written as a phenomenological account of the results of observing the human soul according to the methods of natural science. This seminal work asserts that free spiritual activity--understood as the human ability to think and act independently of physical nature--is the suitable path for human beings today to gain true knowledge of themselves and of the universe. This is not merely a philosophical volume, but rather a warm, heart-oriented guide to the practice and experience of living thinking. Readers will not find abstract philosophy here, but a step-by-step account of how a person may come to experience living, intuitive thinking-- the conscious experience of a purely spiritual content. But only Rudolf Steiner laid out a path that leads from ordinary thinking to the level of pure spiritual activity--intuitive thinking--in which we become co-creators and co-redeemers of the world. When, with the help of Steiner's book, we recognize that thinking is an essentially spiritual activity, we discover that it can school us. In that sense--Steiner's sense--thinking is a spiritual path (Gertrude Reif Hughes).
